# SOUTHEAST TEXAS HOUSING FINANCE CORPORATION

August 4, 2025

The Honorable David Jennings City of Shoreacres Mayor's Office 601 Shoreacres Blvd. Shoreacres, TX 77571

Re: The Southeast Texas Housing Finance Corporation Single Family Mortgage Origination Program

Dear Mayor Jennings:

The Southeast Texas Housing Finance Corporation ("SETH") has applied to the Texas Bond Review Board for an allocation of private activity bond volume cap (the "Volume Cap Allocation") to facilitate a single family mortgage origination program. SETH intends to assign a portion of the Volume Cap Allocation to the Texas Department of Housing and Community Affairs ("TDHCA") in connection with TDHCA's single family mortgage revenue bond programs. The Volume Cap Allocation, once assigned, will be used to provide a means of financing single family home mortgages for residents in SETH's jurisdictions.

Pursuant to the provisions of Section 1372.044 of the Texas Government Code (the "Act"), the City or County, as a sponsoring political subdivision of SETH, must approve of the assignment of the Volume Cap Allocation by the Corporation to TDHCA. Accordingly, we are asking the Commissioners' Court or City Council to pass the attached Resolution as soon as possible in order to meet the requirements of the Act.

It is important to note that any bonds issued by TDHCA will be special limited obligations of TDHCA and neither the sponsoring political subdivisions of SETH, nor SETH, will be liable in any manner for the payment of such bonds.

Please review the Resolution and please contact me by phone at 281-484-4663 ext. 108 or, by email at <a href="mailto:rwilliams@sethfc.com">rwilliams@sethfc.com</a> with any questions or comments you may have. Otherwise, if all is in order, please return the two (2) original signature pages of the signed Resolution to SETH using the enclosed prepaid Federal Express envelope for delivery no later than September 5, 2025.

Sincerely,

Ron Williams
Executive Director

# Executive Summary: Strategic Terminal Operations & Resilience Measures (STORM)

Port Houston is applying for federal funding to construct a new container yard and install a new gate at the Bayport Container Terminal. The projects proposed in the Strategic Terminal Operations & Resilience Measures (STORM) application are designed to accommodate forecasted growth in goods movement demands while maximizing operational efficiency, facility resiliency, and safety for employees and terminal users. These improvements are expected to increase cargo handling capacity while improving truck turn times, ensuring site access resiliency, reducing pressure on the existing gate infrastructure, and improving overall terminal throughput.

This proposal responds to the U.S. Maritime Administration's (MARAD) Port Infrastructure Development Program (PIDP), which provides \$450 million in federal funding for projects that improve the movement of goods through ports.

The goals outlined in the STORM application are:

- Expand Capacity: Increase Bayport's cargo handling capacity by 440,000 twenty-foot equivalent units (TEU).
- Improve Trucking Efficiency: Construct a new East Exit Gate to ease truck flow, cut congestion, and reduce truck turn times, saving over 11 million truck hours over the life of the project.
- Strengthen Resiliency: Develop modern utility and drainage infrastructure to safeguard operations against natural and human-made hazards.
- Enhance Safety and Technology: Expand electrical and communications infrastructure to support modern equipment and bolster terminal security.

Port Houston is requesting \$55 million in PIDP funding and will contribute approximately \$49 million in matching funds. Federal support will enable the Port to enhance multimodal connectivity, reduce land-side congestion, and improve overall terminal throughput and resilience.

This endeavor supports the Port's goal to build workforce capacity by training additional crane operators over the next four years through coordinated investments in certified training programs and broader workforce development initiatives. These high-quality, long-term positions represent a critical component of the Port's operations. In parallel, the Port is assessing additional workforce needs to anticipate future challenges and align its training programs accordingly. This proactive approach will help mitigate project risks by ensuring workforce development efforts are strategically targeted to address potential shortfalls.

This project aligns with regional transportation and freight mobility priorities outlined in the Houston-Galveston Area Council's Regional Transportation Plan (RTP), including investments that reduce freight corridor congestion and improve port access.

Dear Secretary Duffy,

[CITY OR ORGANIZATION NAME] is pleased to express support for the Strategic Terminal Operations & Resilience Measures (STORM) application proposed by Port Houston under the FY 2025 Port Infrastructure Development Program (PIDP). This critical initiative aligns with the national goals of enhancing port efficiency, improving environmental resilience, and strengthening the supply chain.

The projects described in the STORM application will expand port capacity, improve multimodal connectivity, reduce landside congestion, and enhance the resilience and operational efficiency of the Bayport Container Terminal.

Given their significance to the regional and national supply chain, we believe these projects will have a transformative impact on businesses, freight operators, workers, and communities throughout Texas and the broader Gulf Coast region. We strongly encourage MARAD to consider Port Houston's STORM application for PIDP funding.

[CITY OR ORGANIZATION NAME] supports this application with the understanding that continued economic development along the Bay must be paired with responsible environmental stewardship. As such, we advocate for port infrastructure investments that incorporate science-based strategies to protect water quality, minimize habitat disruption, and improve climate resilience.

GENERAL INFORMATION: Tax Code Section 26.04(c) requires an officer or employee designated by the governing body to calculate the no-new-revenue (NNR) tax rate and voter-approval tax rate for the taxing unit. These tax rates are expressed in dollars per \$100 of taxable value calculated. The calculation process starts after the chief appraiser delivers to the taxing unit the certified appraisal roll and the estimated values of properties under protest. The designated officer or employee shall certify that the officer or employee has accurately calculated the tax rates and used values shown for the certified appraisal roll or certified estimate. The officer or employee submits the rates to the governing body by Aug. 7 or as soon thereafter as practicable.

School districts do not use this form, but instead use Comptroller Form 50-859 Tax Rate Calculation Worksheet, School District without Chapter 313 Agreements or Comptroller Form 50-884 Tax Rate Calculation Worksheet, School District with Chapter 313 Agreements.

Water districts as defined under Water Code Section 49.001(1) do not use this form, but instead use Comptroller Form 50-858 Water District Voter-Approval Tax Rate Worksheet for Low Tax Rate and Developing Districts or Comptroller Form 50-860 Developed Water District Voter-Approval Tax Rate Worksheet.

The Comptroller's office provides this worksheet to assist taxing units in determining tax rates. The information provided in this worksheet is offered as technical assistance and not legal advice. Taxing units should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

#### SECTION 1: No-New-Revenue Tax Rate

The NNR tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate that would produce the same amount of taxes (no new taxes) if applied to the same properties that are taxed in both years. When appraisal values increase, the NNR tax rate should decrease.

The NNR tax rate for a county is the sum of the NNR tax rates calculated for each type of tax the county levies.

While uncommon, it is possible for a taxing unit to provide an exemption for only maintenance and operations taxes. In this case, the taxing unit will need to calculate the NNR tax rate separately for the maintenance and operations tax and the debt tax, then add the two components together.

### **SECTION 2: Voter Approval Tax Rate**

The voter-approval tax rate is the highest tax rate that a taxing unit may adopt without holding an election to seek voter approval of the rate. The voter-approval tax rate is split into two separate rates:

- Maintenance and Operations (M&O) Tax Rate: The M&O portion is the tax rate that is needed to raise the same amount of taxes that the taxing unit levied in the prior year plus the applicable percentage allowed by law. This rate accounts for such things as salaries, utilities and day-to-day operations.
- 2. Debt Rate: The debt rate includes the debt service necessary to pay the taxing unit's debt payments in the coming year. This rate accounts for principal and interest on bonds and other debt secured by property tax revenue.

The voter-approval tax rate for a county is the sum of the voter-approval tax rates calculated for each type of tax the county levies. In most cases the voter-approval tax rate exceeds the no-new-revenue tax rate, but occasionally decreases in a taxing unit's debt service will cause the NNR tax rate to be higher than the voter-approval tax rate.

### SECTION 3: NNR Tax Rate and Voter Approval Tax Rate Adjustments for Additional Sales Tax to Reduce Property Taxes

Cities, counties and hospital districts may levy a sales tax specifically to reduce property taxes. Local voters by election must approve imposing or abolishing the additional sales tax. If approved, the taxing unit must reduce its NNR and voter-approval tax rates to offset the expected sales tax revenue.

This section should only be completed by a county, city or hospital district that is required to adjust its NNR tax rate and/or voter-approval tax rate because it adopted the additional sales tax.

### SECTION 4: Voter Approval Tax Rate Adjustment for Pollution Control

A taxing unit may raise its rate for M&O funds used to pay for a facility, device or method for the control of air, water or land pollution. This includes any land, structure, building, installation, excavation, machinery, equipment or device that is used, constructed, acquired or installed wholly or partly to meet or exceed pollution control requirements. The taxing unit's expenses are those necessary to meet the requirements of a permit issued by the Texas Commission on Environmental Quality (TCEQ). The taxing unit must provide the tax assessor with a copy of the TCEQ letter of determination that states the portion of the cost of the installation for pollution control.

This section should only be completed by a taxing unit that uses M&O funds to pay for a facility, device or method for the control of air, water or land pollution.

### SECTION 5: Voter Approval Tax Rate Adjustment for Unused Increment Rate

The unused increment rate is the rate equal to the sum of the prior 3 years Foregone Revenue Amounts divided by the current taxable value. 42 The Foregone Revenue Amount for each year is equal to that year's adopted tax rate subtracted from that year's voter-approval tax rate adjusted to remove the unused increment rate multiplied by that year's current total value. 43

The difference between the adopted tax rate and adjusted voter-approval tax rate is considered zero in the following scenarios:

- a tax year in which a taxing unit affected by a disaster declaration calculates the tax rate under Tax Code Section 26.042; 41
- a tax year in which the municipality is a defunding municipality, as defined by Tax Code Section 26.0501(a); 45 or
- after Jan. 1, 2022, a tax year in which the comptroller determines that the county implemented a budget reduction or reallocation described by Local Government Code Section 120,002(a) without the required voter approval. 45

This section should only be completed by a taxing unit that does not meet the definition of a special taxing unit. 47

The de minimis rate is the rate equal to the sum of the no-new-revenue maintenance and operations rate, the rate that will raise \$500,000, and the current debt rate for a taxing unit. 49 This section should only be completed by a taxing unit that is a municipality of less than 30,000 or a taxing unit that does not meet the definition of a special taxing unit. 49

### SECTION 7: Voter Approval Tax Rate Adjustment for Emergency Revenue Rate

In the tax year after the end of the disaster calculation time period detailed in Tax Code Section 26.042(a), a taxing unit that calculated its voter-approval tax rate in the manner provided for a special taxing unit due to a disaster must calculate its emergency revenue rate and reduce its voter-approval tax rate for that year.50

Similarly, if a taxing unit adopted a tax rate that exceeded its voter-approval tax rate, calculated normally, without holding an election to respond to a disaster, as allowed by Tax Code Section 26.042(d), in the prior year, it must also reduce its voter-approval tax rate for the current tax year. 51

This section will apply to a taxing unit other than a special taxing unit that:

- directed the designated officer or employee to calculate the voter-approval tax rate of the taxing unit in the manner provided for a special taxing unit in the prior year; and
- the current year is the first tax year in which the total taxable value of property taxable by the taxing unit as shown on the appraisal roll for the taxing unit submitted by the assessor for the taxing unit to the governing body exceeds the total taxable value of property taxable by the taxing unit on January 1 of the tax year in which the disaster occurred or the disaster occurred four years ago. This section will apply to a taxing unit in a disaster area that adopted a tax rate greater than its voter-approval tax rate without holding an election in the prior year.

Note: This section does not apply if a taxing unit is continuing to calculate its voter-approval tax rate in the manner provided for a special taxing unit because it is still within the disaster calculation time period detailed in Tax Code Section 26.042(a) because it has not met the conditions in Tax Code Section 26.042(a)(1) or (2).
